

# Dog Breeds Research Project

**Materials per student:** Handout, internet access

## **Procedure:**

### Day 1

1. Get Ready:
  - a. Give students the Handout
  - b. Read about selective breeding in the textbook
  - c. Go over what each item on the Handout means
  - d. Draw names of dog breeds
2. After going to a computer, have students open the PDF “Instructions-Dog Breeds Project”:
  - a. Save a picture of their dog to class folder on the server; title should be “*(last name)-(dog breed)*”
  - b. Use the internet to fill in info. on the handout for their dog

### Day 2

1. Continue filling in Handout
2. Cut & paste picture of dog (that you printed) on the Handout
3. When finished, put the facts into sentences

### Day 3

1. Read reports aloud
